

BY NEWS

The postoffice at Louisa is a second-class matter.

Published Every Friday By
M. F. CONLEY,
Editor and Proprietor

OFFICE: GUNNELL'S BLOCK,
Main Street, Louisa, Kentucky.

R. A. E. Leslie, of East Point, Ky., is manager for Johnson, Floyd, Pike, Knott, Magellan and Martin counties.

One dollar per year, in advance.

Advertising rates furnished upon application.

DAY, SEPT. 12, 1902.

Democratic Ticket.

FOR CONGRESS
JAMES N. KIRKOE,
OF Mason County.

The Court of Appeals will convene next Monday for its regular fall session.

There are lively times ahead for the great Big Sandy Valley. The long sleep is over.

The Goshel Monument Commission will select the design and award the contract for the monument on Nov. 18th.

Hon. F. A. Hopkins will honor the Big Sandy valley and do valuable service as her representative in Congress. He is a man of high character, good morals, and large capacity.

From March 11, 1900, to August 31, 1902, 297 national banks with a capital of \$11,666,500 were organized in the Southern States. Texas leads the list and Kentucky comes next with a total of twenty-one.

Our farmers should all attend the Lawrence County Fair and participate in the good work. Prominent speakers will be present and the opportunity to learn many things of value will be afforded.

COUNTY FAIR.

September 26th and 27th the Dates Fixed for This Year.

The Lawrence County Fair and Farmers' Institute will be held at Louisa this year on Friday and Saturday, Sept. 26th and 27th.

This is going to be a very interesting and instructive affair. The interest increases each year and the class of products shows the result of the better knowledge and greater care and pride which is resulting from the Lawrence county Fair and Institute.

Commissioner of Agriculture J. B. Nall has promised to be present at this year's fair, and also to send other competent speakers to aid in the work of the Institute. Every farmer in this section who takes any interest in his chosen occupation should be present at the meeting. All are sure to profit by it.

LIVE STOCK MARKETS.

UNCLAIMED LETTERS.

Louisa, Ky., Sept. 11, 1902.

List of letters remaining unclaimed in this office September 11, 1902:

Miss Leslie Borders, Jno. M. Moore, M. D., Mr. Billy Myers, Mr. Harry Preston, Mr. Fleming Bateoff, A. M. H. Hines, P. M.

Tutt's Pills

After eating, persons of a bilious habit will derive great benefit by taking one of these pills. If you have been DRINKING TOO MUCH, they will promptly relieve the nausea, SICK HEADACHE, and all other ailments which follow, restore the appetite and remove gloomy feelings. Sufferers are cautioned. Take No Substitute.

BUSSEYVILLE

There will be a social at the Busseyville school house Saturday evening, September 20th, for the purpose of purchasing a library for the school. Everybody is invited to come.

Rev. G. W. Howes preached his last service at this place, for this year, last Sunday. Bro. Howes has done good work for us and we will regret very much to give him up.

H. W. Bussey has returned to A. M. College at Lexington. The average attendance of our public school for last month was 57.

C. C. Hays and family visited E. L. and D. L. Pigg Saturday and Sunday.

Edgar Chapman was here last week.

F. R. Bussey recently sold a nice lot of cattle to Henry Jenkins.

Grandmother Holt, aged 90, who has been residing at the home of her son, B. F. Holt, during the summer, died last Friday evening. She had been in poor health for some time and her friends were not surprised when the summons came. She had many times expressed her readiness to go. Her remains were taken to her old home on Mill Creek, W. Va., and interred by the side of her husband.

Prayer meeting every Wednesday night here.

Sam O'Neal has gone to Lexington to attend school.

Frank Clarkson has been having poor health for the last few weeks. Fred Picklesimer has returned from New River.

Mrs. Mat Meek visited her daughters at Catlettsburg and Kenova recently.

Webb Holt has returned from Huntington. Dandelion.

TO CURE A COLD IN ONE DAY.
Take Laxative Brom Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box, 25c.

GEORGES CREEK.

Miss Nancy Miller is very low with flux.

Heath visited the home of W. M. Lemaister recently, and took from their happy home their little 8-year old son, the pride of their home. Little Albert was a loving little boy, and met every body with a smile. Everyone loved him.

Miss Emily Howlers was here Monday and spent a few hours with Malissa Boyd.

What has become of the Adams correspondent?

S. B. Davis and Mr. Mason passed through here Monday enroute to Louisa.

Everett Compton is again on our creek.

Jan. Boyd called on his best girl Sunday.

Andy Lloyd has moved into his new dwelling.

W. M. Chapman passed here Sunday enroute to Burgess Station.

James Lloyd was also at the Station Sunday.

J. S. has bought him a shot gun and says it is squirrel or no meat.

Gordon Burgess met with the misfortune of having a fine horse killed the other night.

Some of our young folks attended the Children's Day exercises at Charley Sunday. Cracker Jack.

To accommodate those who are partial to the use of atomizers in applying liquids to the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid cream balm. Price including the spraying tube is 75c. Druggists or by mail. The Liquid embodies the medicinal properties of the solid preparation. Cream balm is quickly absorbed by the membrane and does not dry up the secretion but changes them to a natural and healthy character. Ely Brothers, 55 Warren St., N. Y.

BUCHANAN

Chas. Johnson, a son of Rev. John T. Johnson of Ronan Bottom, came home last week after an absence of twenty years to the west. The family had a reunion Sunday.

Mrs. Nannie Pulkerson, of Missouri, and Mrs. Dan Gillespie, of Loganport, Ind., were here Sunday.

Albert Hobson left Monday to enter school at Berea.

Ernest Hall left Tuesday to enter Harboursville College.

Mrs. W. H. Pollard is visiting Catlettsburg relatives.

Jas. R. Black and wife, of Ironton, are visiting here.

Miss Maggie Hatten is visiting in Charleston.

J. W. Hostle, H. & W.'s popular clerk, spent Sunday with home folks.

Mr. M. C. Warren spent Sunday in Catlettsburg.

Judge and Mrs. M. Houston, of Ashland, are boarding at Charles Warren's. Judge is one of the contractors on the new railroad across the river.

Mr. and Mrs. John B. Kibbe will return to St. Louis in a few days.

Mrs. Nora Baskirk and children of Hubbardstown, spent Sunday with Wm. Mickle family.

Croquet sets at Conley's.

Just Across the River in West Virginia.

A child of A. Smith, of Birch, just above Huntington, was bitten by a rattlesnake, and died soon afterward. The snake wrapped itself around the child, and had to be cut to pieces before it could be gotten loose.

Brooks Southerly, a Norfolk and Western railroad brakeman, fell beneath a freight train at Ardell station, in Wayne county Monday, and the wheels passed over his right leg, crushing it to a pulp. The unfortunate man was taken to the Y. M. C. A. rooms at Kenova on a special, where his leg was amputated just above the knee by Dr. L. T. Vinsen. He is now doing nicely and will recover. His home is in Ohio.

At the request of the N. & W. railroad company a special term of Circuit Court was held at Wayne this week for the purpose of appointing commissioners to condemn the right of way for their new line through Wayne county along Tug and Sandy rivers, over that part of their road which they failed to purchase. The fifteen following commissioners were appointed:

Elisha Adkins, Allen Bailey, Jas. O. Hillips, Hurston Hootch, Mack Hootch, Geo. B. Hixon, H. A. Jackson, T. W. Ferguson, B. P. Thompson, Taylor Workman, S. Floyd Hord, W. L. Mansfield, J. P. Weaver, T. H. Haldridge and John P. Mulcom, who have been upon the lands assessing the damages, and they have reported.

Great speed will be taken in these condemnation proceedings as the contractors are now engaged in grading the road.

The East Lynn coal lands have been sold by Senator B. J. Prehara, of Wayne, to A. J. Prehara, of Birmingham Ala., and the consideration is said to have been \$150,000. A corps of lawyers are now busily engaged abstracting the lands and surveyors are running out the boundary lines. It is said that \$50,000 of the purchase price is set apart for the purpose of building a railroad to these lands, which was surveyed a short time ago to connect with the N. & W., and the purchaser proposes to begin operations at once. Some of the valuable coal measure from nine to eleven feet in this field and it is considered by experts to be the finest field of undeveloped coal lands in the state of West Virginia, and will put Wayne county at the top notch of the "Black Belt" of West Virginia. Real estate has already begun to advance in price and town lots are beginning to change hands. Several new buildings are under construction. The Twelve Pole Coal & Iron Company, which had let their title to 1,539 acres of mineral lands in Wayne county forfeit to the state for the non-payment of taxes thereon, rushed into court and redeemed the same by paying \$1,500 to the sheriff. Oil wells will also be driven on these lands.

NOTICE TO CORRESPONDENTS.

Those communications not accompanied by the writer's name can not appear in the NEWS. Our country correspondents will please remember this.

LICK CREEK

Our school, taught by H. B. Carter, is progressing.

S. C. Chapman and Robt. Akers left Sunday for Thacker, where they have work.

The infant child of Albert Shannon is very sick.

Miss Ida Smith, of Louisa, was the pleasant guest of the Misses See Sunday.

Nathan Pool and W. C. Greer have returned to their homes in Arkansas, after a visit to relatives here.

F. M. See visited at Williamson last week.

Lys McClure, of Gallup, and George Garred, of Huntington, visited our Sunday School last Sunday.

Miss Maggie Chapman is visiting her brother at Port Gay this week.

Several of our young folks attended the S. F. Rally at Smoke Valley.

(Gipsie Pigg and two little sisters are on the sick list.

Mrs. H. Mead and little daughter, Ethel, visited Mrs. John Akers Sunday.

Lan McCure and wife are visiting in Catlettsburg.

Prospects for crops are better since the rain.

Let us hear from Denver and Pikeville.

Aye Cause.

Rockefeller.

Patrick.

Our little village is becoming quite a business place.

Rev. A. Preston has erected a fine large barn.

Henry Burgess is having his dwelling repaired and enlarged.

Morgan Vanhose is tearing down an old building for A. Preston was badly hurt, but we hope not seriously.

Charlie Moans and wife are visiting Henry Burgess.

Rev. W. R. Hunt passed through here enroute to Burgess Chapel this week to repair a dwelling for Elliott Burgess.

Rev. W. R. Hunt, Arthur Hunt and John Blackburn of East Point were at John Preston's Sunday.

I wonder what is the matter with John V. of late? He goes round with a great long grin on his face. I think it is a boy.

Afford Debara, who has been very low with fever, is no better.

Arthur Hunt passed through here enroute to Berea, where he will attend school.

Mrs. Jas. Akers visited Tom Creek recently.

Mr. and Mrs. Ballard Price were on Mud Lick Sunday.

Our school is progressing nicely under the management of J. W. Akers.

Mrs. Edna George is very sick.

Frank Preston visited his grandparents at Old Peach Orchard Sunday.

N. A. Borders and wife visited their son, Wallace, recently.

Mrs. Z. Moore visited Mrs. J. H. Preston Tuesday.

Mrs. J. Q. Price visited her brother, J. H. Ekert Sunday.

Mrs. S. Borders, of Lowmansville, visited her sons Friday.

Mad Anthony.

PIKEVILLE.

John Ford, who has been one of Uncle Sam's boys in the Phillips mines, returned last week.

A. A. West, of Island Creek, one of our best citizens, died Thursday of fever.

Miss Kelsie Phillips, who has been teaching school at Forks, of Peter, made a flying trip home Saturday.

Dr. C. C. Maynor and Orville Cure, of Elkhorn City, were here Saturday.

The examining trial of Morgan, for the killing of Sowards is set for today.

We are glad to note that the Pikeville Independent bids fair to be a continued success. Mr. Ferguson, the enterprising editor, says that he has come to stay.

A number of new buildings are going up here.

Rev. C. A. Bowles will preach his farewell sermon for the year next Sunday. Allan Quaternman.

PAINTSVILLE.

As we write this letter there is a heavy rain falling and the greatest drought this county ever witnessed is ended.

Late corn is almost a total failure. Pastures are dried up and the people have suffered great loss for the want of rain.

Elders McHugh and Yocum and Hays, Critts and Herring of the M. E. Church, South, secured grounds for the establishment of a college. The ground was donated by J. C. Mayo.

The Presbyterian church is also trying for land upon which to erect buildings for an industrial school and college. These together with the school we have will furnish the youths of Eastern Kentucky an opportunity to be educated at home.

I. G. Eiler refused to tell why he did not attend the annual meeting. The writer attended the annual meeting of the Christian church last Friday, Saturday and Sunday at Tom's creek. There was not a drunk man on the ground, neither was there any whiskey that we heard of. The horse samplers were conspicuously absent.

The meeting was well attended. Revs. Short, Buchanan and Stambaugh did the preaching.

Rockefeller.

Mad Anthony.

THE SEABOARD AIRLINE.

The Seaboard Airline is surveying two or three routes between Louisa and Ashland, by way of the waters of Blaine and East Fork. It is said that they are finding it entirely practicable to build a railroad through that way. Reports say the intention is to come down the west side of Tug river, cross just above Louisa, near the mouth of Lick creek, and get to Ashland by the route mentioned above.

OUR NEIGHBORS.

Solomon Nickells, Argillite, has been granted a pension of \$16.

A postoffice has been established at Gullett, Magellan County, with Emily Barnett, postmistress.

The C. & O. Railway company contemplates establishing a pension fund for its employes.

Jacob Leicht, a ward by mill man, of Ashland, was married Wednesday to Miss Florence Ross, of Bolts Fork.

John Shoemate, who killed two brothers named Hage in a fight in Rowan county last November, was acquitted.

Morehead is making an active fight for the new Baptist school to be established in the mountains, and has subscribed \$5,000.

Kelley Spears and Miss Julia Clark, of Johnson county, were married in Ironton Monday by Rev. Homer Smith at his residence.

The Supreme Grand Assembly of the Mutual Protection Society will hold its annual meeting in Ashland Tuesday, September the 16th.

Mr. Howard Lawrence, Deputy Clerk of Boyd County, and Miss Virginia Davidson of South Point, Ohio, were married in Ashland Wednesday.

The name of the post-office at Hittentown, Morgan county, Ky., has been changed to Bigstaff, with Myrtle L. Keyser postmistress.

Col. J. H. Northup, of Louisa, has let the contract to James Kilgore, of Catlettsburg, to build five cottages in Ashland, on lots which he has owned for several years.

The Mt. Sterling Gazette says: On searching the county jail at Salyersville the jailer found in the cell of John W. Howard one dozen finest quality burglar saws.

The envelope containing the saws was addressed to Howard, and seemed to have formerly contained a catalogue from a law school. Howard is now confined in jail awaiting the action of the Appellate Court on an appeal from a ten year sentence to the penitentiary.

The famed Jake Patrick, of Salyersville, spent several days here the past week building his fences around the Railroad Commission-ership. How strong will be known later. Jake is an original character of strong mind and pleasing conversation. His speech at the Park was a gem. His father was a Union scout, and became famous by capturing and carrying away a mountain howitzer from the camp of General Humphrey Marshall. It is yet the property of the Patrick family and does duty upon holiday occasions.—Tribune.

Monday the coroner's office of hanging the picture of Mrs. Flora Howell in the court house besides those of two eminent judges took place at Vanceburg. Mrs. Howell is a resident of Newport News, Va., but has won the gratitude of Kentucky heroes of the Spanish-American War who he buried near her home. Mrs. Howell has received the thanks of Governors Bradley and Beckham and besides received a unanimous vote of thanks from the Kentucky Legislature for her magnanimous work. She visits the graves of the Kentucky boys each week and has spent in pains or expense in making them monuments of beauty.

Frankfort, Ky., Sept. 8.—Dell's information regarding the building of a pipe line by the Standard Oil Company to connect with the Eastern Kentucky oil fields has been received here from an official of the company in the East. The information is said to have come to Judge James H. Hazelrigg, president of the Kentucky Ragland Company, one of the biggest operators in the Bath county field. The information is that the company will almost immediately begin the building of the line, and that it is to spend about \$500,000 in the work. The line will come from a point in West Virginia, and will enter the State at Whitehouse. From that point it branches will be run to Knox, Wayne and Bath counties. Judge Hazelrigg denies that he received the letter confirming the rumors of several days past regarding the building of the line.

Appellate Judge Thomas H. Paymer, of Greenup, Ky., nominee for re-election, and Congressman J. N. Kehoe, of Maysville, the Democratic nominee for re-election from the Ninth Kentucky district, are to confer at the Grand, Kehoe's district is a part of Paymer's judicial district.

"I had a meeting with today with the Governor and engineers, about laying out a line for Baltimore, in charge of these improvements to be by Mr. H. H. and Congressmen in Kelson, and to them to hurry up the work on the line as the Big Sandy river, near below Louisa, the outlet at Catlettsburg, which will be delayed by the shortage in cement which prevails throughout the country, and I have their assurance that the work will be rapidly resumed as soon as the cement is available. The government is surveying the harbor at Russell, Greenup county, upon which the Ohio river is encroaching, and steps will be taken to prevent its destruction. It is claimed that under emptied into the river from the fronton side has changed the current and caused the deep cutting into the Russell bank. The government will also construct ice piers at Maysville for the protection of the harbor."—Inland Enquirer.

RETURN.

Mabel Diamond and little sister were visiting at U. G. Howes' Sunday.

Little Henry Hays will start to Louisville Wednesday to attend the Illinois School. Henry is a smart, well informed boy.

David Foster was visiting at William Riley's Sunday.

C. W. Jones and son-in-law, El. Short, passed down our creek Thursday.

Bass Shortridge was on Cat Saturday engaging beef.

G. W. Handley, of Little East fork, was a business visitor on Cat last week.

W. H. James is in the plug horse trading.

Lora and Dora Roberts visited Mattie Hays Sunday.

Lyman Riley has taken up his abode in the Marenm hollow near Mr. Vanover's.

Milton Riley is contemplating a visit to Hittentown.

Millard Fannin and wife were visiting their sister, Lullie James, Sunday.

Thomas Barchett, of Deephole Branch, was on Cat Sunday.

Adam Harman and wife visited their sick brother, V. D. Harman, Monday

Sleep

is Nature's time for rest; and the man who does not take sufficient time to sleep or who cannot sleep when he makes the effort, is wearing out his nervous strength and consuming his vital power. Dr. Miles' Nervine brings sweet, soothing, refreshing sleep. Don't let another night pass. Get it to-day.

"I had had nervous spells, lost all appetite for food and for eight weeks was unable to sleep at night. The only thing that helped me was Dr. Miles' Nervine. It cured me."
Mrs. H. Jackson, Bowling Green, Mo.

Dr. Miles' Nervine

soothes the nerves, nourishes the brain, and refreshes the entire organism.
Sold by druggists on guarantee.
Dr. Miles Medical Co., Elkhart, Ind.

\$11,000 CASH

Will be Yours if You Estimate Nearest the Vote of Three States.

OPEN TO OUR SUBSCRIBERS.

As already announced, the BIG SANDY NEWS has arranged for its subscribers to take part in a contest in which \$25,000 is to be paid to those who make the nearest correct estimates as to what the total vote of New York, Pennsylvania and Michigan will be in the races for Governor next November. Read our big advertisement and find out all about the plan. The vote of these states for several years past is given therein, so that all may be saved the trouble of looking the matter up.

It was originally our intention to allow an estimate only with each dollar paid on advance subscription, but we have now decided to allow an estimate with each \$2.00 paid on back subscription before Sep. 1st. Also, every subscriber who pays up or ahead and procures one or more estimates with same, may enter as many additional estimates as he desires at the rate of 50 cents for one estimate, or \$1.00 for three.

Numbers on our premium offer which has been standing for some time will not be given with any payment that is accompanied by an estimate.

It is our policy to allow an estimate only with each dollar paid on advance subscription, but we have now decided to allow an estimate with each \$2.00 paid on back subscription before Sep. 1st. Also, every subscriber who pays up or ahead and procures one or more estimates with same, may enter as many additional estimates as he desires at the rate of 50 cents for one estimate, or \$1.00 for three.

The earlier your estimates are in the greater the prize will be if you are the nearest estimator.

A Boy's Wild Ride for Life.

With family around expecting him to die, and a son riding for life, 18 miles, to get Mr. King's New Discovery for consumption, coughs and colds, W. H. Brown, of Louisville, Ind., endured death agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 75c and \$1. Trial bottles free at A. M. Hughes drug store.

Farms for Sale.

Situated in the county of Lawrence and state of Kentucky, 16 miles west of Louisa, and 6 miles east of Webbville, on the waters of the Middle fork of the Ohio river. Containing 161 acres.

120 acres under cultivation, and all under good fence. Has two good dwelling houses, one containing five rooms; one large roomy barn as good as new. One stone warm house, size 18x16 ft; one well and several good springs, affording plenty of water the year round for stock; two fine orchards, one apple orchard and one peach orchard, bearing every year, and another young apple orchard containing 100 trees. Farm is known as the Rich Knob farm, is rich land, and known as being fine land for grass.

Title good, can make a general warranty deed for the land.

Price \$2000.

Nifty acres good farming land; good house, half built; good well; good orchard; good small creek; good granary; well watered by springs and a small branch. Coal bank on land, and most all kinds of fruit. All cleared but four timber patches. Situated three miles from railroad, on Blaine, three miles from mouth in a good neighborhood with good schools and churches. Terms cash.

Write to Big Sandy News for information.

Two farms adjoining, with creek running between, one 160 acres, the other 201. Each has dwelling, barn, well, good orchard and plenty of grass. Prices \$1275 and \$1600 respectively.

175 acres, fairly well timbered, 100 acres clear. All can be cultivated, good water, orchard, two dwellings, good barn and outbuildings. Near Busseyville, Lawrence county, good school, church, mill and stores close by, and on main road to Louisa.

100 acres, 75 clear, balance timbered, at Winfield, Johnson county, new cottage from Lawrence line, new cattle, barn, orchard, out buildings.

Apply to BIG SANDY NEWS.

A tract of land containing 151 acres; 30 acres of which is bottom, 40 acres timber land. All under fence. Plenty of water. Good house and out buildings. Two good wells. Two orchards of bearing trees. For terms consult M. F. CONLEY.

210 acres, one mile from Carnot station, 9 miles below Louisa. A. J. Johns Buchanan farm. 200 acres cleared, 60 acres in grass; all in good condition. 2 dwellings, 3 barns, good outbuildings, good fencing, plenty of rail and beaver timber, good coal vein, some fruit, of most all kinds. 1 pair stock scales, plenty of good water, country road through the farm. Land nice and smooth, not an acre that cannot be cultivated. For further particulars apply to BIG SANDY NEWS, Louisa, or H. H. Carnate, Kinross, Ky.

4 miles east of Louisa, on the waters of Deephole branch and big Blaine, containing 300 acres. 250 acres in cultivation, mostly in grass. 50 acres of timber land. Good two story house of eight rooms; two wells in the yard; good garden; good apple and peach orchard; good barn and outbuildings. Store house and good location for country store. Farm well watered and adapted to stock raising; one tenement house and barn on farm.

FARM FOR SALE.—Situated in Lawrence county, Ky., 9 miles west of Louisa, and 16 miles from Webbville, on the waters of Morgan creek, containing 100 acres. 68 acres in cultivation, and all under good fence. Has three good dwelling houses, one containing five rooms. One large roomy barn. One stone warm house, also 18x12; one well and several good springs, affording plenty of water the year round for stock; two fine orchards, one apple orchard and one peach orchard, bearing every year, and another young peach orchard. The land is very fertile and is known as being fine land for grass. Price \$600. For particulars apply to M. F. CONLEY.

E. W. Brown
This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day.

Crossties Wanted.

50,000 standard crossties, white oak and chestnut oak, f.o.b. any station on Big Sandy division of C. & O. Railroad. Price 25c and 40c. Cash paid when inspected and loaded. For further particulars apply to J. W. Perry, agent, Peach Orchard, Ky. (21-13.)

DEVOURED BY WORMS.

Children often cry, not from pain but from hunger, although fed abundantly. The entire trouble arises from inaction, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at A. M. Hughes.

Miners Wanted.

Good miners and machine men can get steady employment at good wages at the Kentucky Block Coal mines in Morgan county. For particulars apply to M. J. Conley, Supl., Canaan City, Ky.

Preventing Hog Cholera.

"That dread season of the year when cholera is at its height, apt to decimate or annihilate the herd of swine on every farm," it will pay to look a good deal into the question of preventing cholera at any time but especially so when year after year cholera has descended upon the herd and ravaged its ranks. Why is it that Jones' hogs escape when Smith's are taken? There is but a fence between the farm; the hogs are of the same breed; the owners are both "just" men. The disease falls upon the just and unjust alike. To be sure; but then there is a way of fooling the germ so that it passes over and hits where he finds congenial surroundings and a fertile soil. A man may be perfectly just but at the same time wrong in his methods of management, and such a man is the one that is sure to suffer when the cholera germ is out and about. And the germ is here and there and everywhere during the fall and early winter months. There can be no question of this. Hogs have been kept for generations in the agricultural districts. The germ annually shows up here and there in these districts. The supply of germs never wholly dies out. Some hogs suffer; others escape. Why? The hogs attacked are susceptible to the disease owing to their condition of blood and body. The ones that escape have been exposed to the germ but they are in a bodily condition not conducive to the entrance and proliferation of the disease germ. Can it be denied that all of us occasionally drink water in which are the germs of typhoid fever, eat fruit similarly tainted, rub against persons coming down with this or other diseases, yet escape? Individuals contract typhoid fever and die; hundreds similarly expose I tell you to contract the disease. This individual offers a suitable germinal place for the disease germ; the other does not. Arguing from this standpoint it is our belief, founded upon experience and the facts, that hogs in an ideal state of constitution, vigor and health are not prone to be affected with cholera and related diseases. Man understands the constitution of his swine by mismanagement or fails to build up a strong constitution. He underrates by surrounding the animals with an unhealthy environment. He fails to build up a constitution in that frequently breeds in and in, or too closely, and so feeds the sire, the progeny sow and the suckling and weaned pig that the requirement of each for a complete ration are not provided.

As to the first proposition—environment—it may be stated that cholera cannot be kept year after year in the same place without rendering that place a fitting habitat and breeding place for germs. Cholera is therefore repulsive, and that means also destruction of the matter in which germs lodge and grow. Destruction cannot well be brought about by mere cleansing. Disinfectants must be freely used every day and the white-wash brush should follow in the wake of the disinfectant. Lime wash serves as a trademark for the principle of cleanliness and once a man adopts it he will never willingly give it up. Yards and fields cannot be disinfected or white washed. They become beds for germ proliferation. They must be dealt with. Flowing, stalling and occasional occupancy by swine instead of continuous use for that purpose are available methods of rendering the environment healthy. Animal walls that have also a fish-like smell and are filled with all the horrors of putrid tank holes cannot be disinfected and must be abandoned and filled up. Sluggish streams and creeks should be avoided and ponds are not to be used as drinking places. Streams are the most prolific source of infection. Stall-ties have shown, in some instances at least, that where cholera is common and deadly the disease decreases gradually and surely in prevalence and virulence as we leave the river behind. Water for hogs should always come from a deep, pure well; never from surface ponds or rivers.

But cleanliness will not suffice. We must have the hardy, healthy constitution referred to above. This cannot proceed from sluggish, indolent parents, nor from feeding that conduces to sluggishness and unhealth. Fresh blood should be frequently infused into the veins of the hogs. Fresh blood should be used instead of continuing year after year to use the same blood, raised in the same locality. Buy hogs from a different attitude and of geological formation, and of a different family and the animals are polioleged. Vitality and constitution and conformation are the chief considerations in purchasing a hog for the germinal place of an animal's pedigree comes as a secondary consideration. Immature sires and dams habitually bred from cannot but reduce the stamina of the entire herd. Mature animals used for breeding purposes will be likely to beget stronger, better bodied and muscled hogs than can immature parents. Further, the mature animal has survived the trials of immature life;

hence is a survival of the fittest, and these are natural progenitors of their race. A mature animal is not, however, merely the result of age. He is still immature at an age if he has not been fed a complete ration steadily from the first of life. The requirements of the body. If a farm's dam and sire were habitually fed corn; if the dam ate corn as a well-nigh exclusive ration during pregnancy and during the lactation period; if the pig was early set to eat corn and give a corn instead of a nutritious or mixed ration from weaning time to apparent maturity, the hog in question could not possibly become a mature anything but a "corn product." His bone would be deficient in earthy salts, his tissues flabby and fat, his constitution delicate, his blood sluggish, his temperament phlegmatic. Like hogs like, Smith's hog could, from cows of like character, beget nothing other than his own likeness; such "like ones" similarly fed and managed in time would become gradually weaker. It is hogs bred and fed in this way that the cholera germ is looking for! It is such hogs that annually succumb to the dread disease. It is hogs of the opposite kind that escape. No amount of medicine, no special nostrum, not all the wood ashes and sulphur and charred corn-cobs and stone coal on earth—will antidote hereditary evils; and such things are needless for healthy, bold, fed and exercised hogs kept in sanitary surroundings.

When cholera is prevalent in the district stay at home. Don't rush over to the neighbor's for the sake of giving him an antiquated "cholera remedy" or sage advice. Stay at home and keep him off the place, and allow no visiting by members of his family. Be unsociable during cholera times. Don't visit other folks' swine pens or yards, and don't allow them to visit yours. Keep neighbors' dogs off the farm, and set your own dog on the follow who comes to you with a never-failing remedy or preventive of cholera. How do you know that his hogs and pigs are not cholera tainted? Cholera is his meat; the place of outbreak is his pasture ground. Show him as you would a man stricken with smallpox. Quarantine all fresh purchases for thirty days. Hogs from other herds should not be introduced among the home animals until they are proved free from disease. Have your local health officer prevent the hauling of dead hogs to soap factories; have them prostrate a man that throws a dead hog into a running stream or ships exposed hogs to market to save their lives by having them slaughtered in a hurry. Finally, use disinfectants in the pens, upon the hogs and in their feed. Manage hogs with all of the above things constantly in view and cholera will become less common and the business more profitable and pleasant—except that follow with the cholera infected hogs!

FOR SALE.

One 22 inch strand grist mill, almost new, one 16 horse power engine in good working order, one upright boiler. Terms, cash, or note six months with approved security.

Special Prizes.

We desire to call particular attention to the four special prizes of \$1000 each yet open to News subscribers in the estimating contest. The first one closed July 31st. All of these should be taken advantage of by our subscribers, as the chances of being successful are much greater than where only the regular list is open. Those who register estimates within the dates specified in the advertisement published elsewhere in this paper stand a chance of securing these special prizes without regard to the main list. The closest estimate received within each period wins the special prize set apart. Then if the winning estimate in one of these is the nearest correct of the entire contest, the big prize of \$10,000 goes along with it. Or, in the same way any of the minor prizes at the general contest.

An estimate is given free with each advance payment on subscription to the BIG SANDY NEWS, or three estimates for each one dollar without subscription are allowed to those subscribers who secure one or more estimates with subscriptions. The special prize offer now in force expires Aug. 15th. Don't fail to get in some estimates on it.

Miners Wanted.

50 miners wanted at Torchlight, Ky. Steady employment. Apply to John Wallace, formerly Supl., Peach Orchard mines, now in charge of Torchlight mines.

Torchlight Coal Co., Louisa, Ky.

Among Conley's new books are: "Dorothy Vernon," "Audrey," "Dorothy Kingsley," "Grustark," and "The Crisis," at \$1.25 each.

Oil for the Children.

Give them oil—cod-liver oil. It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anemic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.

Preventing Hog Cholera.

"That dread season of the year when cholera is at its height, apt to decimate or annihilate the herd of swine on every farm," it will pay to look a good deal into the question of preventing cholera at any time but especially so when year after year cholera has descended upon the herd and ravaged its ranks. Why is it that Jones' hogs escape when Smith's are taken? There is but a fence between the farm; the hogs are of the same breed; the owners are both "just" men. The disease falls upon the just and unjust alike. To be sure; but then there is a way of fooling the germ so that it passes over and hits where he finds congenial surroundings and a fertile soil. A man may be perfectly just but at the same time wrong in his methods of management, and such a man is the one that is sure to suffer when the cholera germ is out and about. And the germ is here and there and everywhere during the fall and early winter months. There can be no question of this. Hogs have been kept for generations in the agricultural districts. The germ annually shows up here and there in these districts. The supply of germs never wholly dies out. Some hogs suffer; others escape. Why? The hogs attacked are susceptible to the disease owing to their condition of blood and body. The ones that escape have been exposed to the germ but they are in a bodily condition not conducive to the entrance and proliferation of the disease germ. Can it be denied that all of us occasionally drink water in which are the germs of typhoid fever, eat fruit similarly tainted, rub against persons coming down with this or other diseases, yet escape? Individuals contract typhoid fever and die; hundreds similarly expose I tell you to contract the disease. This individual offers a suitable germinal place for the disease germ; the other does not. Arguing from this standpoint it is our belief, founded upon experience and the facts, that hogs in an ideal state of constitution, vigor and health are not prone to be affected with cholera and related diseases. Man understands the constitution of his swine by mismanagement or fails to build up a strong constitution. He underrates by surrounding the animals with an unhealthy environment. He fails to build up a constitution in that frequently breeds in and in, or too closely, and so feeds the sire, the progeny sow and the suckling and weaned pig that the requirement of each for a complete ration are not provided.

As to the first proposition—environment—it may be stated that cholera cannot be kept year after year in the same place without rendering that place a fitting habitat and breeding place for germs. A Great Profit
Sharing Contest
\$25,000
IN 1,000 CASH PRIZES

First Prize \$10,000; Second Prize \$3,000; Third Prize \$1,000.
Five Special prizes of \$1,000 each for Early Estimates.

Every subscriber to The Big Sandy News will have an opportunity to share in these magnificent prizes if he wishes to participate in the Great Educational Contest in which these prizes are given. The subject matter of this great contest is the total vote cast for Governor in the States of New York, Pennsylvania and Michigan on the 4th day of November, 1902. Every person interested in the science of Government should be interested in the election in these states. An election in New York is always of
